Subject: Commitment for Phase III Funding and Product Sales

Dear NASA SBIR Ignite Program Team,

I am writing to express my unwavering commitment to the project proposal titled "Leveraging Spintronics, Spin-Based Quantum Sensors, and Optimization of Fluid Dynamics for Enhanced Nanocrystal Growth in Microgravity," which I have submitted to the NASA SBIR Ignite program.

As the CEO of Bubbles & Café Inc, I believe in the transformative potential of this project. I am committed to providing capital funding and exploring product sales opportunities if the project progresses to Phase III and market demand persists.

We recognize the value of this research and its potential applications across various industries. Beyond financial support, we are open to collaboration, joint ventures, and technology licensing to maximize the project's impact.

This commitment will be activated upon a successful Phase II progression and continued market demand. We are dedicated to advancing space exploration and materials science through innovation.

Feel free to contact me at Ilakk2023@gmail.com for further discussions.

Thank you for your consideration.
